PROJECT

A MISSION FOR HUMANITY

13 JUNE -24 JULY 2022

JOIN US IN MAKING A FAIRER WORLD.

Dear Changemaker,

Just by virtue of reading this communication, you have become a part of a community which over the coming decades is going to change the way in which individuals across the world think about development, sustainability and decision-making.

we have created a space for Thirty-two people.

Thirty-two people, who seek the truth in a world comfortably unawarz.

Thirty-two people, who only cede to reason, and not to conformity.

Thirty-two curious people, who are not afraid to question.

Thirty-two headstrong people, who will not waver in the face of agendas that benefit only a few.

Thirty-two people, who choose to "become", in a world that chooses to "be".

Thirty-two people, who believe they can change the world.

Thirty-two people, who will participate in the third edition of The F.A.I.R. Project: A Mission for Humanity.

Together, we will assume the responsibility of inculcating fairness in our lives.

we have created a space for Thirty-two people.

we invite you to meet the other Thirty-one.

WHAT

The F.A.I.R. Project, an initiative of Eight Goals One Foundation (8one), is organising an online experiential program for individuals between 18 to 27 years of age, supported by UNESCO New Delhi.

F.A.I.R. is a methodology of introspection which is driven by active dialogue and analysis to inculcate a mindset that focuses on what is right for all and not what benefits a few.

F.A.I.R. is a continuing conversation beyond the formal program, embarking on a mission for holistic and inclusive betterment of humanity.

WHY

We believe that decisions based on collective values are possible, despite the contemporary doctrine and evidences of individualistic interests winning over common good.

The F.A.I.R. Project wants to equip you with the thought process that helps you develop real time solutions to propagate our 8 goals, which complement the United Nations' Sustainable Development Goals (SDGs), and mobilise change irrespective of which political, commercial, social or personal situation you may find yourself in.

HOW

F.A.I.R. follows an inquiry-based model, which begins with learning to question, and then to unlearn and re-learn based on factual evidence and sound reason.

F.A.I.R. as a process focuses on developing a rational understanding of the world through a series of interactions with relevant stakeholders and experts, critical engagement with issues, personal introspection, and learning to question and being comfortable both factually and logically with your conclusions.

WHO

We want to invite applications from motivated and open-minded young individuals who are driven by their inquisitiveness and the willingness to learn and lead, and are not limited by their level and field of qualification.

These individuals will help build a community conducive for creating and sustaining objective, balanced, and socially pervasive change.

STEP 1

FACT-FIND AND FAMILIARISE

Our mind often finds it easier to choose the option where the most amount of information has been made visible to us. This information is better processed subject to the volumes of supporting data that our brain has access to and the confidence with which we can assess its outcome.

To ensure a fair outcome, it is extremely important for us to provide our brain with equal volumes of comparative information. It is pertinent to ensure that facts are found to supplement all positions.

Step 1 aims to equip you with the above. We want 'F' to help you discover, examine and organize this information in a manner that would help you view the whole picture and ensure that each position is well-informed to facilitate your decision-making process.

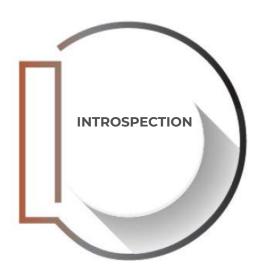

STEP 2

ADVOCATE FOR ALTERNATE VIEWPOINTS

Step 2 focuses on advocating for alternate viewpoints. This includes identifying all the relevant stakeholders, understanding their arguments and perspectives, and thereafter advocating for their viewpoints to compare it with one's own initial position.

For an individual to be fair, we believe it to be key to actively consider different existing and potential perspectives. It would be important to understand the subject from each of the relevant stakeholder's perspective and develop an argument that would counter your prevailing opinion to test the fairness of your judgement.

Our aim, at the end of the day, is to ensure that we think about what is fair, as opposed to who has the better argument, or as mentioned in Step 1, where there is more easily accessible information.

STEP 3

INTROSPECTION

Step 3 is to introspect whether the arguments put forth by you are strong or weak compared to your original belief. In order to ensure this, 'l' focuses on interrogating yourself to strengthen your conviction and assess the objectivity of your judgement.

To ensure fairness, this step focuses on treating each decision without retribution to ensure that you enter into any debate with a neutral perspective. At this stage, you would be equipped with both comparative volumes of information and varied perspectives. This step aims to ensure that your final judgement is one where you are confident of the fairness of the decision and its objectivity.

STEP 4

REASON AND RATIONALISE

Step 4 is the true test of whether a fair decision has been reached based on factual evidence, alternative considerations, rigorous introspection, logical actualization and effective communication.

The decisions that you make, whether in your everyday life or regarding certain subject matters, come with both tangible and intangible accountability. Step 4 provides the final set of checks and balances by asking the question 'why' to ensure that these decisions have been accounted for.

Eight Goals One Foundation was co-founded by Ramit Singh Chimni and Varun Achreja to support the eight goals that our foundation has identified as crucial in our mission for humanity. These goals include - Well-being, Gender Equality, Peace, Environment, Hygiene, Nutrition, Education and Employment. We aim to affect pragmatic and sustainable progress across these goals with a focus on social development over other interpretations of the term 'development'.
